

# IGLA ANTI-THEFT SYSTEM

# IGLA ANTI – THEFT SYSTEM

- Pricing Starts at \$1,200 Installed!
- The most technologically advanced anti-theft system available.
- Blocks key programming and locks vehicle's onboard computer — even if thieves have your keys.

# WHAT IS IT?

- Only system that blocks key programming
- Prevents engine start or drive-away without PIN
- User-programmable PIN using factory buttons
- Emergency reset available for forgotten PINs
- Undetectable by traditional theft methods
- No LEDs, silent operation, no circuit cuts
- Immune to RF scanning and code-grabbing

# WHY IGLA?

- Car theft is easier than ever — especially push-to-start models
- Thieves use RF scanners to steal key signals and clone keys
- Dealerships are losing vehicles from their lots
- With IGLA, even if they unlock your car, they can't start it or copy the key

**\*Consult with us as your local installer\***

# STRENGTHS AND BENEFITS

- No subscription or extra payments
- Tiny size — easy to install, hard to detect
- Does not interfere with factory wiring
- Maintains manufacturer warranty
- Supports Bluetooth fob, smartphone, or standard buttons
- Anti-carjacking mode (optional)
- Service mode for maintenance visits

\*Features depend on vehicle model and system version\*
